
Atlas of
VISUALIZATION

Edited by
The Visualization Society of Japan

III

The background of the cover is a complex, abstract visualization. It features a central vertical axis with a rainbow-like spectrum of colors (red, orange, yellow, green, blue, purple) that appears to be a data visualization or a spectral analysis. The colors are layered and overlapping, creating a sense of depth and movement. The overall aesthetic is scientific and artistic, typical of data visualization art.

Atlas of Visualization, Volume III by Visuakization Society of Japan

Visuakization Society of Japan

Visualization is a unique interdisciplinary technology for making any phenomenon transparent via visualizing the invisible utilizing computing device techniques. The Atlas of Visualization offers the most recent advances in visualization techniques, photo processing, laptop graphics, and visualization of measured and compound results.
