THE BATTLE FOR LEYTE GULF

THE INCREDIBLE STORY OF
WORLD WAR II'S LARGEST NAVAL BATTLE

BY VINN WOODWARD

INTRODUCTION BY CLAYTON KRESS

Battle for Leyte Gulf by C. Vann Woodward

C. Vann Woodward

Pulitzer-Prize-winner and bestselling writer C. Vann Woodward recreates the gripping account of the conflict for Leyte Gulf—the maximum naval conflict of global struggle II and the biggest engagement ever fought at the excessive seas. For the Japanese, it represented their superb effort; they dedicated to motion almost each operational battling send at the lists of the Imperial Navy, together with robust new battleships of the Yamato class. It additionally resulted in their maximum defeat—and an important victory for the us Navy. encompasses a new creation by way of Evan Thomas, writer of *Sea of Thunder*.

The conflict for Leyte Gulf may conveniently have grew to become out differently. the japanese had designed a technique that succeeded in pulling the majority of united states naval forces clear of the serious San Bernadino Strait that gave jap significant strength lower than Admiral Kurita the chance to thwart our landings within the Philippines. C. Vann Woodward offers us a moment-by-moment and battle-by-battle account of what used to be actually our greatest naval engagement in global warfare II, one that entire off the japanese army as a good force. the tactic itself used to be a desperation circulate that consisted of a three-pronged process designed to attract off the majority of the third and seventh Fleets overlaying the landings at Leyte Gulf. The northern and southern prongs essentially sacrificed a good portion of Japan's naval strength to shop for time for Kurita to strike at Leyte Gulf. It approximately succeeded. First, aerial assaults on Kurita's critical strength whereas it was once steaming in the course of the Sibuyan sea over-estimated the wear wrought opposed to Kurita's force, deceiving Admiral Halsey of the 3rd Fleet into considering he may take his forces north to wipe out Ozawa's decoy strength of vendors coming from the north. Ozawa's decoy used to be winning on the fee of his vendors and different delivery within the conflict of Engano. Halsey compounded his mistakes of judgment by means of imprecise conversation that recommended he was once leaving "Task team 34" to hide the San Bernadino Strait while he in truth took this strength with him. This obscure communique led Admiral Kinkaid to finish that he may perhaps take his 7th Fleet to confront the southern prong of the assault within the Surigao Strait. as a result of conversation and different difficulties Admirals Nishimura and Shima didn't coordinate and American forces have been for the final time capable of "cross the T" with devastating influence on Nishimura's force. whereas victorious, Kinkaid has used up so much of his firepower and used to be no longer in place or properly ready to answer the risk that emerged from the San Bernadino Strait as Kurita's strength emerged. the one strength there have been poorly armed escort vendors and a screening destroyer force, probably no fit for Kurita. Only heroic motion through the yankee destroyers and masking plane avoided the quick destruction of the fleet. but all seemed misplaced while unexpectedly Kurita stopped Battle for Leyte Gulf and circled and went again to the Sibuyan Sea. It was once transparent that had he pressed on, he can have gained the engagement, having got rid of the destroyer display and all started assaults at the carriers. From post-war interviews which Woodward includes, it seems that Kurita rationalized his selection according to the hold up he had with the assaults within the Sibuyan sea, pondering he used to be encountering a better force, losses to his personal shipping, and the chance for engagement with Halsey's returning force. In actuality, after a short reconnaissance of the area, he became

back, having sacrificed the Battle for Leyte Gulf Japanese military with no reaching his goal of repelling the Yank landings within the Philippines. Woodward explores this combination of strategy, communications and miscommunications, and the relative strengths of every force. Within the end, the result got here right down to the notion and backbone of a key leader, Admiral Kurita and the heroism of the escort provider forces. A special end result could nonetheless have intended catastrophic losses to the Japanese army and merely not on time the inevitable. Probably that used to be what used to be on Kurita's mind...
