Il linguaggio del cambiamento. Elementi di comunicazione terapeutica

Paul Watzlawick

Il libro focalizza l'importanza del linguaggio nella psicoterapia: non il linguaggio come semplice mezzo d'espressione, bensì il linguaggio come arte di persuasione. Watzlawick ritiene che l'uomo disponga di due linguaggi diversi. Il mondo della razionalità è controllato dall'emisfero cerebrale sinistro e consente di interpretare la realtà obiettiva in termini razionali secondo una logica. Il linguaggio del cambiamento. Elementi di comunicazione terapeutica metodologica. Questa è spesso in conflitto con l'attività dell'emisfero destro, origine delle fantasie, dei sogni e delle idee che sembrano assurde. Scopo del libro è insegnare la grammatica dell'emisfero destro in cui si realizza il "cambiamento", "cambiare l'immagine del mondo che produce dolore" nel paziente attraverso paradossi, allegorie, giochi verbali, prescrizioni.

Este libro describe dos teorías del cambio: los grupos y el sentido lógico e ilógico de los cambios. Describe cómo se crean laberintos humanos, y luego hace un intento por aconsejar que el individuo se centre en la totalidad de la vida para así no verse afectado negativamente por el cambio, sino más bien aprovecharse de él para su beneficio.
