Manuel Longares

Éstas son las historias que la ciudad guarda como un secreto. La Ciudad Sentida hasta que un día se somete a la disección del cronista. La Ciudad Sentida igual que el cadáver al bisturí del forense y en algún punto de su geografía muestra la cara oculta de la evidencia. La ciudad sentida reúne cincuenta y tres relatos sobre las leyendas, los personajes y las peripecias de una ciudad que, pese a presentarse tal cual es, La Ciudad Sentida sin modificar el nombre de sus calles ni la ubicación de sus monumentos, no parece la misma cuando el retratista la refleja. La ciudad sentida, que aquí se publica junto con el primer libro de cuentos del autor, Extravíos, insiste en las características de la obra corta de Manuel Longares: originalidad, vanguardia, sentido del humor y un campo narrativo abierto a la experimentación literaria, donde se mezclan ficciones y certezas porque lo único que importa es el juego.
