Año seventy one d.C. En Germania, en los confines del imperio, ha estallado los angeles insurrección. Detalles confusos van llegando a Roma. Persiste l. a. ambigüedad sobre el papel que ha desempeñado l. a. legión Gemina, l. a. flor y nata La Mano de Hierro de Marte (Marcus Didius Falco #4) de las legiones imperiales. Al tiempo que Tito César, el hijo de Vespasiano, seduce a Helena Justina, novia de Marco Didio Falco, éste, que últimamente no da golpe, es enviado a investigar el asunto. Falco debe entregar al jefe rebelde una voluminosa mano de hierro de una estatua del dios de l. La Mano de Hierro de Marte (Marcus Didius Falco #4) a. guerra. El obsequio simboliza los angeles mano que se tiende en señal de amistad o el puño imperial dispuesto a aplastar los angeles insurrección. Remontando el Rhin se adentrará en l. a. Germania Libera, región plagada de tabernas y legionarios pendencieros y aviesos, para rescatar a un tribuno romano ofrendado por el jefe rebelde a una siniestra pitonisa tribal. Pero esto no es todo... Helena Justina reniega del empalagoso Tito César y La Mano de Hierro de Marte (Marcus Didius Falco #4) se lanza a una arriesgada aventura en busca de su amado.

Of the entire Falco novels, this one became out to be one in all my favorites, most likely since it incorporated extra army adventures than different Falco books and swordplay. This story of intrigue is determined La Mano de Hierro de Marte (Marcus Didius Falco #4) in Germania the place Falco, Vespasian's agent, is tasked with trying to derail a uprising led through the Batavian chief Civilis and win over a mysterious prophetess. due to the fact that so much of my research of Rome has focused on the overdue Republican period, i used to be now not acquainted with this significant insurgency that arose in the course of the reign of Vespasian. So, I did a bit research. Gaius Julius Civilis used to be the chief of the Batavian uprising opposed to the Romans in sixty nine AD. even though his identify exhibits he used to be Romanized by means of Augustus or one of many different Julian emperors, Civilis used to be two times imprisoned on a cost of rebellion, and narrowly escaped execution. in the course of the tumult that the dying of the emperor, Nero, Civilis took up fingers below the pretense of siding with the Flavian emperor, Vespasian, and precipitated the population of his local nation to rebel. The Batavians, who had rendered necessary relief less than La Mano de Hierro de Marte (Marcus Didius Falco #4) the early emperors, have been good taken care of through next emperors. They have been exempt from tribute, yet have been obliged to provide a good number of males for the army. This conscription and the oppression of provincial governors, however, finally ended in revolt. The Batavians have been instantly joined through a number of neighboring German tribes, crucial of whom have been the Frisii. The Roman La Mano de Hierro de Marte (Marcus Didius Falco #4) garrisons close to the Rhine have been pushed out, and twenty-four ships captured. legions lower than Mummius Lupercus have been defeated at Castra Vetera (near glossy Xanten) and surrounded. 8 cohorts of Batavian veterans joined their countrymen, and the troops despatched through Vespasian to the relaxation of Vetera threw of La Mano de Hierro de Marte (Marcus Didius Falco #4) their lot La Mano de Hierro de Marte (Marcus Didius Falco #4) with them as well. The results of those accessions to the forces of Civilis was once one other rebellion in Gaul. There, the Roman commander, Hordeonius Flaccus, was once murdered by way of his troops and the rest Roman forces have been brought on via

commanders of the Gallic auxiliaries--Julius Classicus and Julius Tutor--to riot from Rome and subscribe to Civilis in a brand new self sufficient state of Gaul. The prophetess Veleda envisioned the La Mano de Hierro de Marte (Marcus Didius Falco #4) total good fortune of Civilis and the autumn of the Roman Empire. Veleda was once a virginal holy lady of the Germanic tribe of the Bructeri. "The historic Germanic peoples discerned a divinity of prophecy in girls and considered prophetesses as precise and residing goddesses. within the latter 1/2 the first century CE Veleda was once considered as a deity via many of the tribes in relevant Germany and loved vast influence. She lived in a tower close to the Lippe River, a tributary of the Rhine. The population of the Roman coast of Colonia Claudia Ara Agrippinensium (now Cologne) authorised her arbitration in a clash with the Tencteri, an unfederated tribe of Germany." - Wikipedia Like the pythia of historic Greece, envoys weren't admitted to her presence; an interpreter conveyed their messages to her and pronounced her pronouncements. So, it's not identified even if Veleda simply prophesied the victory or actively incited the rebellion. But, ultimately, tribal disputes ended any likelihood for fulfillment and Vespasian was once in a position to positioned down the uprising with the arriving of Quintus Potillius Cerealis and a powerful force. Civilis, himself, was once defeated at Augusta Treverorum (modern Trier) and Vetera, and compelled to withdraw to the island of Batavia. it's proposal Civilis negotiated an contract with Cerialis wherein his countrymen bought yes advantages, and resumed amicable family with Rome, even though Civilis disappears from the historic list at this point, an ominous sign. However, Cerialis, like Julius Caesar, was once recognized for his clementia, so La Mano de Hierro de Marte (Marcus Didius Falco #4) the result won't were dire after all. As for Veleda, she used to be both captured by means of Rutillius Gallicus or "offered asylum" in seventy seven CE. She is believed to have negotiated the recognition of a pro-Roman king by way of her tribe, the Bructeri, in eighty three or eighty four CE. Note: the executive authority for the heritage of the riot is Tacitus, Histories, iv and v, and Josephus, Bellum Judaicum, vii. 4. So, there's fairly a chance for Falco to strut his stuff on a scale some distance more than his traditional sleuthing in again alleys. i believe this is the reason i used to be drawn into this tale greater than a few of his different adventures. even if I knew Falco had as soon as served within the legions, he was once way more actual during this La Mano de Hierro de Marte (Marcus Didius Falco #4) story than the others and his sardonic character used to be stored rather in payment as a result of the heightened probability of his circumstances. I hugely suggest it!
