Memory Traces: 1989 and the Question of German Cultural Identity

Silke Arnold-de Simone

This essay assortment examines the dynamics of reminiscence association and how it varies between assorted media and modes of discourse in post-unification Germany. German unification has placed the post-war interval right into an ancient perspective. The sort of rupture increases questions about the acceptable commemoration, protection and reinterpretation of the past. The techniques of reorientation after unification inspired the self-perception of literary authors in addition to the social role, place and standing of German literature. In addition, they affected the *Memory Traces: 1989 and the Question of German Cultural Identity* way in which writers considered the contest within which they discovered themselves pitted opposed to visible and digital media as rival home windows at the past. Within the context of numerous debates on German literature through the Nineties, the dialogue revolved not just round the sufficient aesthetic illustration of the ancient and cultural historical past yet much more so round *Memory Traces: 1989 and the Question of German Cultural Identity* the function of literature itself in that process. The contributions examine assorted discourses that have been and nonetheless are serious about reinterpreting and growing new collective symbols and narrative styles with regards to Germany's past. The quantity makes a speciality of the consequences of the attribute discourses of the press, literature and its diverse genres, film, the web and memorials at the depiction and function of memories.
