# Sword-Dancer (Tiger and Del #1) by Jennifer Roberson

Jennifer Roberson

SOUTHON BLADE SKILL,NORTHERN SWORD MAGIC...He was once Tiger, born of the wilderness winds, raised as a slave and successful his freedom by way of weaving a distinct type of magic with a warrior's skill. Now he was once a virtually mythical Sword-Dancer (Tiger and Del #1) sword-dancer, able to tackle Sword-Dancer (Tiger and Del #1) any challenge--if the fee used to be right...or the girl lovely enough.She used to be Del, born of ice and storm, informed by way of the best of Northern sword masters. Now, her ritual education completed, and steeped within the unique magic of her personal runesword, she had come south looking for the younger brother stolen 5 years before.But even Del couldn't grasp all of the hazards of the lethal Punja alone. And assembly Del, Tiger couldn't flip again from the main interesting problem he'd ever faced--the problem of a magical, mysterious sword-dancer of the North

I learn Jennifer Roberson's historicals lengthy ahead of i found her delusion books. yet after downing her Robin Hood retellings and one Scottish bloodbath novel, i found she used to be really far better identified for her prior Sword-Dancer saga. I enjoyed her historicals for being so character-driven. I enjoyed them for his or her robust women. and that i enjoyed them for his or her chunkiness. So I went into SWORD-DANCER--the first booklet of six within the Sword-Dancer saga--with a feeling of chuffed anticipation yet with out wisdom of what they have been about. The covers are a combined bag, the canopy artist altering with each books. I favor the 1st artist, because the 3rd is simply cartooney looking, whereas the center one makes my loved Tiger and Del seem like contributors of an 80s Glam steel band. \*shudder\* Of course, correct after i ended the sequence DAW re-released all six in 3 exchange paperback omnibus editions, natch.The tale opens in a backwater cantina at the edges of the good Southron wilderness often called the Punja. The effective sword-dancer the Sandtiger is ensconced in his ordinary corner, having fun with the wine (and the cantina girls), whilst in walks difficulty within the kind of a girl from the Sword-Dancer (Tiger and Del #1) north with ice-pale hair, a sword strapped to her back, and vengeance Sword-Dancer (Tiger and Del #1) on her mind. She provides her identify as Del and seeks to rent Tiger to be her consultant throughout the Punja on a trip to discover her brother, loose him from slavery, and kill those who stole him. regularly up for a challenge, really whilst it is available in one of these wonderful package, Tiger has the same opinion to her phrases and the 2 set off. Amid sandstorms and sandtigers, in among venomous insults and great swordfighting, those opposites are pressured to profit a number of issues approximately one another in addition to themselves and Tiger, for one, realizes that after the airborne dirt and dust settles the area as he knew it can be almost unrecognizable.I will simply cross forward and begin by means of announcing you won't like Tiger at first. you won't like him at all. he's irascible and monumentally arrogant. he's a womanizer and lazy to compliment it. And he narrates the story! yet then he's a residing legend, after all. He slew the sandtiger that used to be systematically decimating his village and has the claw-shaped scar on his cheek to turn out it. He accomplished his master-level education at an unparalleled speed. To a definite degree, his perspective is to be expected. yet you want to take into account this is often the way it begins. belief the storyteller. Tiger has a ways to head and many pages during which to make a change of sorts. And the glorious thing, the object that had me leaping up and down inside of as

I learn this publication for the 1st time, is the truth that Del is simply as distant and prickly and difficult as Tiger is annoying. Having sacrificed every little thing to distinct revenge for her brother, she has given up so much of her humanity in addition to it. And so it is not a case of her getting him to come back round or him breaking via her icy external and both of them "fixing" the other. On paper they're the definition of heroes, yet as you get to understand them how very a ways they are surely from their outer personas. It takes guts to begin a chain off with such difficult, not easy characters. yet relaxation assured, by the point the top of the 1st ebook rolls round your hearts should be gained over. The battling is awesome, the stakes emotional and high, the magic advanced and everchanging, and the romance sophisticated and stretching out over the entire series. i'm hoping you have to proceed on as each one ebook will get greater and better. one other very good instance of a chain staying real to itself. analyzing order: SWORD-DANCER, Sword-Singer, Sword-Maker, Sword-Breaker, Sword-Born, and Sword-Sworn. As usual, I hugely suggest all six.
